Medicaid and Marketplace Authorization and Claim Reconsideration Guide

Pre-Service and Post-Service Authorization Reconsiderations

This guide was created to break down the differences between a Peer-to-Peer review, an Authorization Reconsideration, a Claim Reconsideration, and a Member Appeal represented by the provider. The requirements for each process are included below. Please consult your contractual agreement for any exclusions or exceptions.

Peer-to-Peer Review Process

Network providers may request a Peer-to-Peer review (“P2P”) within five calendar days of the date on the initial authorization denial notification.

To make the Peer-to-Peer request:
- Call Molina Healthcare Utilization Management at (855) 322-4079 from 8:30 a.m. to 5 p.m., Monday to Friday.
- Include two possible dates and times a **licensed professional** is available to conduct the review with a Molina Medical Director.

If the Peer-to-Peer does not change the outcome of a determination, or is not requested within five days, providers may request an authorization reconsideration within 30 days of the date on the authorization denial notification.

The authorization reconsideration must include new/additional clinical information to be considered. Once a determination has been rendered for the authorization reconsideration, no further authorization reconsiderations are available.

Note: NICU authorizations are excluded from the 30-day reconsideration process. NICU providers who disagree with a medical necessity determination should follow the Peer-to-Peer process by contacting ProgenyHealth directly at (888) 832-2006.

Authorization Reconsideration Process

Submit an authorization reconsideration only when disputing a level of care determination, a medical necessity denial with new/additional clinical information, or a retro authorization for Extenuating Circumstances.

Below is the list of Extenuating Circumstances that apply to both inpatient and outpatient authorization requirements. Within 120 days of the claim denial, the provider may file for an authorization reconsideration even if the authorization was not requested in advance of the service(s) being provided. The specific circumstance the provider feels was applicable to the request should be noted on the reconsideration form, documentation to support the extenuating circumstance, as well as the applicable clinical information should be included with the request. In accordance with Molina policy, please remember to always verify enrollment using the Ohio Medicaid Program’s Eligibility System (MITS).

Extenuating Circumstances:

- A newborn remains an inpatient longer than the member and needs a separate authorization.
- Member was brought into facility unconscious and/or unable to provide insurance carrier information (Requires provider to submit copy of registration face sheet and full description of why the documentation could not be obtained from the member. In addition, Molina will review claims/authorizations history for the past six months for validation purposes).
- Retro-enrollment/retro coordination of benefits (COB) change makes Molina the primary carrier.
- Transition of Care/Continuity of Care.
- Abortion/Sterilization/Hysterectomy (operative reports are required).
- The service is not an included benefit in the primary insurance coverage (example: no maternity care benefits).
- A baby is born to a member with other third party primary coverage and the baby is not covered under such coverage.
- Add-on codes, or changes in coding during the procedure (operative reports are required as applicable).
- Other circumstances as determined by Molina.

An Authorization Reconsideration can be submitted via the Provider Portal (only if a claim has been filed) or fax within 30 calendar days of the date on the authorization denial notification.

Note: NICU authorizations are excluded from the 30-day reconsideration process. NICU providers who disagree with a medical necessity determination should follow the Peer-to-Peer process by contacting ProgenyHealth directly at (888) 832-2006.
